

FEELINGS ARE GOOD

I feel I feel
I feel and I feel good, it's understood

I hurt I hurt
I hurt and I'm here alert, feeling the hurt

Feelings are good

I'm sad I'm sad
I'm sad and I want my dad, I want my dad

I'm ashamed I'm full of shame
I'm full of shame and it's not mine,
I won't take the blame

Feelings are good

I've got fear there's fear right here
There's fear right here and it's under my breath,
This fear is real

Feelings are good
Feelings are good
Feelings are good it's understood

DON'T TALK MUCH

I don't talk much
Cause when I do I lie
I don't listen well
I'm not the listening kind of guy

But when I'm deep in your arms
I feel I'm full of fire

I don't see too good
I used to but now I'm blind
I've lived in poverty
I act my age and now I slide

Get up my life has gone and walked out on me
Get up my life has gone and died
Get up my life has gone and walked out on me
Get up my life has gone and lied

But when I'm deep in your arms
I feel I'm full of fire
And when I say I love you, baby I really do
When I say I want you, then baby I want you
When I say I need you, then baby I want you

Get up my wife has gone and walked out on me
Get up my wife has gone and died
Get up my wife has gone and walked out on me
Get up my wife has gone and lied

But when I'm deep in your arms
I feel I'm full of fire
and when I say I want you, baby I really do
when I say I need you, then baby I need you
when I say I love you, baby I want you
when I say I need you, then baby I need you

Where is my god
The god that isn't here
The god that's only love
The god that's disappeared

Where is my god
The god that's everywhere
The god that looks so good
The god that's on the air

Where is my god Where is my god
Where is my god

The god that lets me hear
The god that drives my car
The god that's in my ear

Where is my god Where is my god
Where is my god Where is my god

The god that's in her boots
The god that's in this food
The god that's only good

Here is my god
god is here

EVERYONE IS GETTING IT BUT ME

I'm not surprised
Excited I get
With every step of my way
Everywhere I look
It seems like there's someone getting it on

Reminds me of the time when
Everyone was getting it but me

Photograph here
Some picture there
Some sees the video on TV
It's like bein' in school
And I was the last guy I liked

When I was fairly sure that
Everyone was getting it but me
Reminds me of the time when
Everyone was getting it but me

Oh it's a looking glass war
Oh everyone just wants more
I know it's hard on you all

Is it a question of low self esteem?
Or keeping up with the 'J-o-n-es's'?
Is it a reason for learning to read?
Even the mother embracing the father?

(segue)

Leavin' again
You're leavin' again
Maybe a future
Maybe it's over
Maybe it's over

Reminds me of the time
(I wish I had a system if I had a)
Reminds me of the time
(good system I could play and play on)
Reminds me of the time
(and I would be so excited I would be just a)
Reminds me of the time
(lead singer in the bedroom or the bathroom)
When everyone was
(I have a book, well, it's a magazine)
Getting it
(and, um, I like to look at the pictures)
But me
(I mean, you know, I know)
When everyone was
(that my parents are watching TV)
Getting it
(but I look at the pictures I feel)
But me
(kinda special)
When everyone was getting it but me
(I'm just lonely basically)
But me

ALWAYS WRONG

I'm always wrong
You're always right
We're in our room
We start to fight

Now there's some light
I see the way
I don't care how
you must stay now

I'm in the mood
The light is soft
You want to talk
Talk about you

Inside I scream
I need you now
Inside of me
Inside of you

You're the kind of pain
I can do without

We're alright
You know we're alright
And if we lose
You know that we die
We're alright

LOOK HOMEWARD ANGEL

Look homeward angel you've got to
Fly right back you've got to
Dip your angel's wings and
Fly right back

Look to your limit baby your
Boundaries know that
What you have got baby
Is all that you need

It's easy to take a plane
And you can keep your last name
It's easy to stay on top
Without ever being born

The last thing that I would ever wanna do
Is try to hurt you little girl
The last thing that I would ever I would ever I would ever
The last thing that I would ever wanna do
Is try to hurt you little girl
The last thing I would ever wanna do I tell ya
It's the last thing I would
The last thing I would ever do
The last thing I would do

Don't disappear on me and I
Won't leave on you
We will find faith in one another
If we make up our minds

Let's put our past behind us
Our future ahead
Take a step together
Like we already were
So come on

LOSING YOU

Lady - let me love you once again
I've found - life's so much harder since you been gone
There's been - lots of mistakes in my life
But none can compare to losing you

Lady - I just can't get you off of my mind
I'm thinking was I a boy when you wanted a man
There's been plenty of longing in this life
But none can compare to missing you

Your deep velvet kisses
Green translucent eyes
Shoulder length hair of a goddess
I want you I want you I want you here
Your lips gently pouted frozen in time to mine
In visible stillness
Your love comes to mind just in time

There's been lots of mistakes in my life
But none can compare to losing you

SEE YOU AGAIN

I don't ever want to see you again
I don't ever want to see you again
But I know that I will
I know that I will

I don't ever want to hear you again
I don't ever want to hear you again
But I know that I will
I know that I will

You maimed me You shot me down

I don't ever want to see you again in this town
I don't ever want to hear you come calling around
I'm gonna get away I'm gonna run away
I'm gonna get away I'm gonna run away

I know that I will
I know that I will
I know that I will
I know that I will

You maimed me You shot me down
You maimed me You shot me down

DOWN AGAIN

Oh god I'm down again
Oh god I'm down again
Oh god I'm down again I'm so far down

Oh man I'm down again
Oh man I'm down again
Oh man I'm down again I'm so far down

I can not be of much use to you
I can not be of much use to you

Playing the clown again
Looking around again
Playing around again I'm looking for something

Someone to rescue me
Someone that I can't see
Something that's inside me and I can't see it

I can not be of much use to you dead

Oh god I'm down again
Oh god I'm down again
Oh god I'm down again I'm so far down

Playing the clown again
Looking around again
Playing around again I'm looking for something

I can not be of much use to you
I can not be of much use to you
I can not be of much use to you
I can not be of much use to you dead

GIRL RAW

Get to see her
How did I get to see her?
Get to meet her
How did I get to meet her?
Get to do her
How did I get to do her?
Get to adore her
How did I get to adore her?

The girl raw the girl raw the girl raw
I rubbed the girl raw

Get to feel her
How did I get to feel her?
Get to need her
How did I get to need her?
Get to resent her
How did I get to resent her?
Get to use her
How did I get to abuse her?

The girl raw the girl raw the girl raw
I rubbed the girl raw

I me and you...
I get into you...
I get in tune...

ENCORE FOR BEAN

When I'm not with you
I'm not all there
You know I hate you leave you
I love you my dear

You're so very smart now
and so very tall
You're becoming quite a girl now
With your own point of view

*It's a full moon baby
It's up over you*

Now there will be times
when I'm not around
And you're gonna wonder
was it something you said

I want you to know now
You can do anything
I love you to pieces
You're the bees knees

Rit.

Now you understand me
You know what I do
Sometimes lest than best
Is the best I can do

By telephone or telefax
or write me a letter
That way we'll stay coziest
or even online

Rit.

TRUST THE PROCESS

Don't you worry
Time's a healer
'Fore you know it
You'll be through it

Just believing
Keeps you breathing
Keep on building

Keep the liars
In my head home
Take no notice
They'll be dead soon
Trusting instinct
Trust the feeling
Trust in living
Trust the process

*I will love forever trust in you
Trust in my love last forever
Trust in you
Trust in my love last forever
Trust in you*

Days of innocence
Are behind me
All I've left is
My adult life
Lots of time left
Left to move up
Trust the ceiling
Trust the process

Rit.

HOLE IN THE MUD

I am the flame the burns beside your window pane
you blow me out
you don't give a damn about goo
what do you do?

I am the mind that feeds you lies every time
I am the mind that
makes you disappear like glue
how do you do?

One day I'll fly over the trees
I'll get to feeling so good that I won't even ask me my age

Leave me alone you know the game pay the price
miss-interfering
I don't interfere with you
leave me to stew

I'll come around I'll see the sun leave it up
I want to stay
if I see anything I want I'll say
how much for you?

One day I'll fly over the sea
I'll get to feeling so good that I won't even ask me my age

One day I'll fly over the beach
I'll get to feeling so good that you won't even ask me to
reach

One day I'll fly over the trees
I'll get to feeling so good that I won't even ask me my
name
